

WHAT IS THE ACTIVE 20-30 CLUB?

We are a committed, motivated group of women between the ages of twenty-one and thirty-nine who share the common goal of making a difference in the lives of community children.

In 1987, the Southern Arizona chapter became the world's first Women's Active 20-30 club, paving the way for women to build similar organizations elsewhere. The dream of seven young professional women in Tucson became a reality, a club dedicated to the improvement of the health and well-being of children all over the world.

Into the club's eighteenth year, the women in the chapter have given a great deal to the Tucson community through hands-on activities. In addition, with the generosity of local businesses and the hard work and dedication of the club members, we have raised more than \$500,000 to date for local youth charities. www.2030women.com

THE RED CARPET EVENT

This year will be our first annual Red Carpet Event and we are thrilled by the continued support of the wonderful Tucson community. In year's past, the Women's 20-30 Club was best known for our biggest fundraiser, Casino Night. Due to our change in venue and the wonderful partnership we share with La Encantada, the members have decided the time has come for a fresh, new and exciting event that will truly showcase the club and its members. Our theme for 2006 will be "Masquerade Ball". We look forward to seeing all of you there!

**WHEN: APRIL 22, 2006
7:00 PM TO 11:00 pm**

Our beneficiary –
Steele Children's Research Center
(www.crc.arizona.edu)

In 1987, the Active 20-30 joined the Steele
Children's Research Center in the fight against
chronic childhood diseases. In 1992, 20-30
established an endowment dedicated to
improving the health and well being of children
in Arizona. The endowment was later named in
memory of former club President Melody Luyties,
who lost
her battle with cancer in 1999.

Over the years, the 20-30 club has funded
dozens of research projects at Steele including:
hope for type 1 diabetics, lifesaving discoveries
about early heart development to rescue babies
afflicted with cardiac abnormalities and tackling
a common type of cancerous tumor in children,
neuroblastoma.

The Steele Children's Research Center was named in
honor of the late Horace W. Steele of Phoenix. The
Steele Foundation made a lead gift in 1990 to help
build the Steele Center. The Center is very proud
that the Active 20-30 Club is a long time partner in
our quest to create a better future for all children.
